Runaway Boys.

Ward was received at the police station today from Pleasant Grove in the effect that a twelve-year-old boy named Frank Green had run away from his home at that place since Saturday. He is supposed to have come to this city. He will undoubtedly be picked up by the police on his arrival and returned to his parents.

About a Water Right.

In the Third District Court this afternoon Franklin Holman brought suit against the Miners Furnace Company, laying the damages at \$2000.

The complaint alleges that since June 1, 1892, plaintiff by purchase has had the exclusive right to the use of the water flowing in Little Cottonwood creek, etc., to convey the same through the Sandy ditch to a point where the latter is intercepted and tapped by the Allens ditch, thence to the Miners furnace. On the Sandy, thence taking the water by means of gates, pipes, etc., into Sandy, for domestic, manufacturing and other purposes.

That defendant have of late been unlawfully preventing plaintiff from diverting and using this water, and therefore, in addition to claiming damages, he asks that the defendants be restrained and enjoined from further intercepting the right.

Hawkins and Critchlow are the plaintiff's attorneys.

SERIOUS ACCIDENT.

Bishop Hamilton of Mill Creek, Sustains a Severe Injury.

Bishop Hamilton, of Mill Creek, met with a serious accident about 7 o'clock last evening while working on a threshing machine on the farm of Bishop Sheats, next the east boundary. In an unguarded moment one of his arms was caught in the machinery and was badly lacerated. The machine was stopped quickly as possible and the Bishop released from his perilous situation. He was removed to his home shortly afterward and given every medical attention, and is reported as doing nicely.

His brother, John Hamilton, was considerably hurt a few days ago by falling from a stack of grain. Fortunately no bones were broken. He is now on the road to recovery.

Disgraced Condemned.

We are reliably informed concerning a business in a portion of the main Ward which is said to have become well nigh insolvent. The information is to the effect that numbers of young men have been held captive in secret rooms, some of them being pitchforks, piecing cards and other pastimes, accompanying their games with bawdiness and obscenity. Occasionally a few engagements in a large hall were arranged, but these were conducted in the darkness of which are distributed by the mites. Besides this, some of the boys are induced to leave their classes to go and view the games. The effect of all this is deplorable.

It is stated to us that some of those who reside in the conduct referred to are married men. If this be a fact, it is very remarkable. At this time there exists a condition of things which is sufficient to subject the reform from such proceedings. We trust they will continue to exist and not place the disengaged in the upper tier. There are sufficient numbers in the community to take steps to have it stopped. If the situation is not changed we shall insist upon the police officers of the city investigating the matter and taking suitable action in the premises.

THE STRIKE BROKEN.

NEW YORK, Aug. 23.—Vice-President Wells of the New York Central returned this morning from Buffalo, where he had been engaged in negotiations with the strikers. He says: "The strike, in my opinion, is broken. It cannot extend eastward. There is a slight chance that Grand Master Sweney will order a strike in the West, but even then it is a chance. The miners have not yet voted, but they have had the last night. The miners they thought that the better."

JOHN BROWN.

PHILADELPHIA, Aug. 23.—Up to now the plan of the plaintiffs in the iron hall strike has been to keep the strike on the Erie yard a mile outside the city, and that a number of other men have been wounded by the soldiers' bullets in the other yards.

THE STRIKE BROKEN.

There is some shooting going on at this hour. Most of the shots are coming from the direction of Clinton street, between the Ninth and Tenth. Captain Boggs is in charge of company K. of the Twelfth. There are tenements near the railroad and the people are all out in the street. There is great excitement.

WENTHROP PARKERS NOT YET ORGANIZED.

The latest reports from the scene of the riot show that half have been killed and the other half are still in the hands of the police. The number of men killed is two thousand dollars. To prevent these various parties and injustice to myself, I, when asked last month, declined to give up possession till after the men had been organized by the Second-First regiment. It is impossible to get up the guards within a mile of the Seventy-first.

OSBURN V. JUNIOR.

According to the statements of the miners there were more or less shooting on the outskirts last night of both the Twenty-first and Twenty-second regiments. The soldiers were shooting on the part of the strikers. So far as known, no one was hurt. About 1 o'clock this morning a man, giving his name as Wm. Morris, was taken to the hospital. He was a member of the miners' organization and was shot in the leg. He was challenged by a soldier on Harrison street and after having some words with the soldier he started to walk off. The soldier, however, fired first, hitting him in the back. The bullet went through his coat and hit him in the spine, wounding him severely. He was taken to St. Vincent's hospital, where he is still alive.

ANOTHER TRAGEDY AT NEW YORK.

NEW YORK, Aug. 23.—The seventh annual meeting of the Knights of Pythias, the most tremendous gets yet committed by the strikers or their sympathizers took place last night. A loaded freight train was passing out of Brooklyn, when, about 12 o'clock, the engine of locomotive No. 1000, was struck by a car of the Michigan Central track.

As soon as the engineer saw the train coming, he made a hurried effort to open the gate, but before he could do so, the car dashed into it and it was cut in two. The engineer, however, was hurt and otherwise injured. The train was running at eighteen miles an hour and it seems to stand it was all on the bridge. After the collision, the engine of locomotive No. 1000, which had cut out of his hand by a conductor, the engine of the train, with the gate might have resulted in precipitating all the bridge approach.

NATIONAL GUARD OF UTAH.

NEW YORK, Aug. 23.—The Friends say: Commercial telegraphers of the United States are engaged in forming a national organization. A committee has just been sent to the National Guard of Utah to form such an organization. The Friends have been in touch with the leaders of the country. "On my way to Buffalo," said he, "in response to an invitation from Grand Master J. H. McNeil, who is president of the Union of Labor of America." His order had me grievances to right. He thought the demands of the strikers were just, but he strongly condemned the recent strikes. Clark

was joined here by Grand Master Wilkinson of the order of railway conductors of Illinois and both left for Butte at a early hour.
